PROFESSIONAL SUMMARY

Applied AI Solutions Engineer who designs and ships **end-to-end AI-powered products** — from data pipelines to production web apps — using AI orchestration (OpenCode, Claude) and a full-stack mindset. Blends business analytics (SQL, Power BI), engineering (React, Python) and agentic AI workflows to deliver complete products instead of point solutions. **Two products live in production**; a BI platform saved leadership **15–20 hours of manual processing per month**.

CORE SKILLS

AI & ORCHESTRATION

OpenCode • Claude • AI-Assisted Development • Agent Workflows • Prompt Engineering • Automation Pipelines

DATA & BI

SQL (T-SQL) • Power BI • Excel • Pandas & NumPy • Predictive Modeling • Dashboarding • Database Design

ENGINEERING

React • Vite • JavaScript • Python • MySQL • Supabase • REST APIs • Git & GitHub • Netlify/Vercel • Barcode Vision • Offline-First Architecture

PROCESS & COMMUNICATION

Requirements Gathering • Workflow Digitization • Stakeholder Communication • KPI Strategy • Microsoft Visio

EXPERIENCE

Applied AI Solutions Engineer • Prokon Hi-Tech Systems

Present

- Building end-to-end AI-powered solutions for the company using OpenCode, Claude and AI orchestration workflows.
- Shipping a new company website from architecture to production (live soon).
- Unifying data analysis, engineering and AI tooling to deliver complete products rather than point solutions.

Data & Business Analyst Intern • Trossachs Corporate Advisors

Jan 2026 – May 2026

- Delivered DataFlow Pro, a BI & analytics platform giving leadership real-time visibility into revenue trends, compliance risk and operational KPIs.
- Saved leadership **15–20 hours/month** of manual data processing and reporting.
- Used AI-assisted tools (Claude, OpenCode) to accelerate delivery and SQL refactoring, shortening project timelines.

Software Developer Intern • Prokon Hi-Tech Systems

Jun 2024 – Jul 2024

- Digitised manual business workflows (inventory tracking, AMC management) into a Python/MySQL system, improving reporting accuracy.
- Replaced paper-based processes with HTML forms and Google Suite, cutting administrative turnaround time.

PROJECTS

SJS Retail Jewellery Suite • 2026 • LIVE ON NETLIFY

retailjewellery.netlify.app

- Offline-first retail management system for a jewellery business — billing, stock, purchases, customers and PDF invoices.
- Live gold-rate calculator and hallmark HUID splitting engine for GST-compliant tracking; role-based auth with audit trails.
- Protected money-moving logic with **20+ automated unit tests** covering billing, stock and CSV logic.

Sewadar Attendance System • 2026 • LIVE ON NETLIFY

employeeattendance.netlify.app

- Camera-based QR/barcode gate check-in (**1-second scans**) for a real industrial workplace.
- Offline-first with queued sync; three role tiers (employee / admin / super admin); reports with Excel export.

DataFlow Pro — BI Platform • 2026 • SHIPPED AT TROSSACHS

- Real-time analytics across revenue, compliance risk and operational KPIs in one view; saved 15–20 hrs/month.

EDUCATION

Bachelor of Computer Applications (AI) — Lingaya's Vidyapeeth, Faridabad

2023 – 2026

CGPA 9.0

Senior Secondary (Commerce) — Grand Columbus International School, Faridabad

2021 – 2023

Class 12: 93% Class 10: 90%
